MCKINLEY CHILDREN'S CENTER FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING REVIEW

The Department of Children and Family Services (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a review of McKinley Children's Center Foster Family Agency (the FFA) in March 2013. The FFA has one licensed office, located in the First Supervisorial District, and provides services to County of Los Angeles DCFS foster children and youth. According to the FFA's program statement, its mission is "Helping children and youth gain the skills, knowledge, and self-esteem essential to personal maturity and return to successfully functioning families."

At the time of the review, the FFA supervised 155 DCFS placed children in 67 certified foster homes. The placed children's average length of placement was 12 months, and their average age was 9.

SUMMARY

During OHCMD's review, the interviewed children generally reported: feeling safe at the FFA; having been provided with good care and appropriate services; being comfortable in their environment and treated with respect and dignity. The certified foster parents reported they were supported by the FFA staff in their efforts to provide care, supervision and service delivery to the children placed in their homes.

The FFA was in full compliance with 9 of 11 sections of our program compliance review: Certified Foster Homes; Maintenance of Required Documentation and Service Delivery; Education and Workforce Readiness; Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Personal Needs/Survival and Economic Well-Being; Discharged Children; and Personnel Records.

"To Enrich Lives Through Effective and Caring Services"

OHCMD noted deficiencies in the areas of Licensure/Contract Requirements, related to having six substantiated complaints by Community Care Licensing (CCL); and Facility and Environment, related to a child's bedroom window being blocked, preventing exit.

Attached are the details of our review.

REVIEW OF REPORT

On May 7, 2013, the DCFS OHCMD Monitor, Sharon Koga, held an Exit Conference with the FFA representatives Julissa Castillo, Executive Director, Maria Perez, Regional Administrator, and Sharon Moreno, Supervising Foster Care Social Worker. The FFA's representatives: agreed with the review findings and recommendations; was receptive to implementing systemic changes to improve their compliance with regulatory standards; and further agreed to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and CCL.

The FFA provided the attached approved CAP addressing the recommendations noted in this compliance report.

OHCMD will confirm that these recommendations have been implemented during our next monitoring review.

**MCKINLEY CHILDREN'S CENTER FOSTER FAMILY AGENCY
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2012-2013**

SCOPE OF REVIEW

The following report is based on a "point in time" monitoring visit. This compliance report addresses findings noted during the March 2013 review. The purpose of this review was to assess McKinley Children's Center Foster Family Agency's (the FFA) compliance with the County contract and State regulations and included a review of the FFA's program statement, as well as administrative internal policies and procedures. The monitoring review covered the following 11 areas:

- Licensure/Contract Requirements,
- Certified Foster Homes,
- Facility and Environment,
- Maintenance of Required Documentation and Service Delivery,
- Educational and Workforce Readiness,
- Health and Medical Needs,
- Psychotropic Medication,
- Personal Rights and Social Emotional Well-Being,
- Personal Needs/Survival and Economic Well-Being,
- Discharged Children, and
- Personnel Records.

For purposes of this review, 12 children were selected for the sample. Out-of-Home Care Management Division (OHCMD) interviewed each child and reviewed their case files to assess the care and services they received. Additionally, four discharged children's files were also reviewed to assess the FFA's compliance with permanency efforts. At the time of the review, 13 placed children were prescribed psychotropic medication. OHCMD reviewed ten case files to assess for timeliness of Psychotropic Medication Authorizations and to confirm the required documentation of psychiatric monitoring.

OHCMD reviewed four certified foster parent files and five staff files were reviewed for compliance with Title 22 Regulations and County contract requirements. Interviews were conducted with four certified foster parents to assess the quality of care and supervision provided to children.

CONTRACTUAL COMPLIANCE

OHCMD found the following two areas to be out of compliance.

Licensure/Contract Requirements

The FFA had six substantiated Community Care Licensing (CCL) complaints.

- CCL substantiated a complaint dated December 14, 2012 of an allegation involving lack of supervision that occurred when the foster child missed the school bus to go home, and the school was unable to contact the foster mother's daughter, who was supervising the child at the time. The Plan of Correction (POC) was for the FFA to provide training to the certified foster parents and any other caregiver in the certified home, and the school emergency contact information be updated. A referral alleging General Neglect was called into the Child Protection Hot Line (CPHL) on December 14, 2012. During the course of the investigation, the certified foster parent disclosed that she spanked the younger children on their buttocks occasionally, when they really misbehave. Although the referral was determined to be unfounded by Department of Children and Family Services (DCFS) Emergency Response Children's Social Worker (ER CSW) and Out-of-Home Care Investigations Section (OHCIS), OHCIS requested a Corrective Action Plan (CAP) to address the following concerns: lack of supervision, use of corporal punishment, and no criminal clearances on a babysitter. The FFA submitted a CAP, which was approved. There is currently one child in the home.
- CCL substantiated a complaint/referral dated December 9, 2012 of an allegation that involved general neglect with unfavorable conduct by the certified foster parent. The general neglect allegation involved the child being dirty, disheveled, and had a dirty diaper. The unfavorable conduct by the certified foster parent involved the certified foster parent being found incoherent and drunk by law enforcement after driving her vehicle into a divider in a parking lot. She was arrested by law enforcement. This referral was also substantiated by DCFS and OHCIS. The home was immediately decertified. The home is on an "indefinite hold" due to substantiated allegation of severe neglect. There are currently no children in the home.
- CCL substantiated a complaint/referral dated May 4, 2012 of an allegation regarding not following court orders that involved certified foster mother allowing the minor mother to take her son, without certified foster mother's supervision, which was against court orders. The POC was for the FFA to provide the certified foster mother training. The certified foster mother received training on the importance of complying with court orders and in parenting skills in working with teenagers. No OHCIS investigation was conducted. However, this referral was also substantiated by the DCFS ER CSW. The home has been placed on an "indefinite hold" by OHCMD. There is currently one child in the home.
- CCL substantiated a complaint/referral dated February 4, 2012 of an allegation involving lack of supervision that occurred when the caregiver failed to respond to the door bell or to the individual calling out, although the caregiver was present in the home. The foster child allowed the individual into the home. The POC was for the FFA to provide re-training to the certified foster parents. The certified foster parents received training in proper supervision of foster children. This referral was determined to be inconclusive by the DCFS ER CSW. No OHCIS investigation was conducted. There are currently no children in the home.
- CCL substantiated a complaint/referral dated November 15, 2011 of an allegation of an unsanitary home that involved the home being in general disrepair: hole in the wall in the bathroom; broken drawers in the kitchen, master bedroom full of boxes, huge pile of unfolded

clothing on top of boxes; girls' bedroom full of clutter and unsanitary; soda bottles, empty cans of food with forks in it, hair brushes and toiletries scattered all over the floor; and pieces of chips and other food crumbs on the carpet. The POC was for the FFA to address and correct each of the deficiencies cited. All of the deficiencies were corrected, and the certified foster parents were reminded of the importance of having the home in compliance at all times. This referral was evaluated out and no investigation was done by the DCFS ER worker or OHCIS. There are currently four children in the home.

- CCL substantiated a September 24, 2011 complaint/referral of a sexual abuse allegation that involved inappropriate touching by certified foster father. The certified foster mother contacted law enforcement and the FFA as soon as the allegations were brought to her attention. The FFA made a referral to the Child Protection Hotline. The FFA immediately decertified the home and the placed children were removed. This referral was also substantiated by the DCFS ER CSW and OHCIS. OHCIS placed the home on an "indefinite hold" and it will no longer be used as a placement resource due to the substantiated allegation of sexual abuse. There are currently no children in the home.

Recommendation

The FFA's management shall ensure that:

1. All certified foster parents are re-trained in the importance of keeping in compliance with Title 22 Regulations, all court orders, and ensuring the safety of the foster children.

Facility and Environment

- One certified foster home had a bedroom window blocked, preventing the child's exit from the window. Upon notification of the situation, the FFA immediately had the certified foster parent remove the boxes blocking the window.

Recommendation

The FFA's management shall ensure that:

2. All bedroom windows are clear of obstructions.

PRIOR YEAR FOLLOW-UP FROM DCFS OHCMD's FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING REVIEW

The OHCMD's last compliance report dated June 27, 2012, identified four recommendations.

Results

Based on our follow-up, the FFA fully implemented all four recommendations for which they were to ensure that:

- Initial Needs and Services Plans (NSPs) are comprehensive, including child specific, measurable, and time-framed goals.
- Monthly contacts with Children's Social Workers (CSWs) are documented on the NSPs.
- Updated NSPs are comprehensive, including child specific, measurable, and time-framed goals.
- All children are encouraged and/or assisted with maintaining a life book/photo album.

OHCMD is concerned about the number of CCL substantiated complaints and will increase the frequency of visits to assess the safety of placed children in McKinley FFA homes. OHCMD will conduct mini-reviews to the FFA on a quarterly basis, as well as conduct their annual monitoring review to ensure that appropriate oversight and services are delivered to placed children.
